

Sriharsha Vadavalli

Career Objective

I'm a motivated and aspirational student with experience in Python, C++, and JavaScript. I am excited to gain technical knowledge from the current industry and use it to get a cooperative, growth-oriented internship opportunity.

Education

Computer Science Engineering, Vellore Institute of Technology, Vellore

07/2022 - Present

CGPA-9.2

Intermediate, FIITJEE Junior College, Hyderabad

05/2020 - 05/2022

Secured 97.8% in Intermediate Boards.

1-10, Johnson Grammar School ICSE, Hyderabad

04/2010 - 03/2020

Secured 94% in Tenth Boards.

Projects

CyberSecurity in Health-Care Systems

11/2023 - Present

I initiated a project with college peers to uphold the CIA triad, prioritizing data integrity and encryption. Our focus is on the healthcare industry due to its critical importance.

Tech Stack Used:

- Java
- Git
- HL7 (Health Care Seven)

Hang-Man Game

Udemy's Full Stack Web Development course honed my coding skills and offered insights into crafting interactive web applications. Proficiency gained through creating a captivating game enriched my hands-on learning experience.

Tech Stack Used:

- HTML 5
- CSS 3
- JavaScript

Priority E-Mail Sorter

The "PriorityMail Sorter" is an upcoming project in its conceptual phase, aiming to enhance email management. The innovative system, set to be implemented soon, automates the categorization and sorting of incoming emails based on priority.

Possible Tech Stack that could be used:

- HTML
- CSS
- JavaScript
- MongoDB
- React JS
- Git
